

Combating Trafficking in Persons

It is Air Force policy to deter activities of Air Force service members, civilian employees, contract employees and family members from activities that would facilitate or support Trafficking In Persons (TIP). The AF opposes prostitution, forced labor and any other related activities that are harmful and dehumanizing; such activities are incompatible with AF core values.

Mandatory annual training, and/or pre-deployment training must be completed through Advanced Distributed Learning Service, also known as ADLS.
